

Akari Anfield

Global Threads Local Ties

SIEBA CONFERENCE 25-26 JUNE 2024

Speaker Bio:

Akari is currently coordinating the Study Dunedin portfolio at Enterprise Dunedin, an Economic Development Agency of Dunedin City Council. As the Study Dunedin Coordinator, Akari's role is to work with Dunedin's international education stakeholders including tertiary providers, secondary schools, and cultural community leaders to promote Dunedin as a study destination for the international market.

Akari has first-hand experience as an international student when she completed year 12 and 13 at Roncalli College in Timaru. After completing her secondary education, she then enrolled and completed a Bachelor of Commerce at the University of Otago.

As a living example of someone who has transitioned from an international student to a resident of Dunedin city, Akari is happy to share her personal experiences from the point of view of being a past international student and in her current role with destination marketing.

**Economic Development
Advisor**

Enterprise Dunedin

Topic 1 - Regional
Collaboration and International
Education

Topic 2 - Enhancing the Student
& Host Family Experience
