## Global Threads Local Ties

SIEBA CONFERENCE 25-26 JUNE 2024

### Speaker Bio:

In 2013, I embarked on a journey that would redefine my professional life by obtaining my license to practice as an Immigration Consultant in New Zealand. Since then, I have earned the reputation as one of Auckland's most trusted licensed immigration advisors, particularly within the Chinese and Indian communities. My commitment to integrity and excellence has allowed me to successfully navigate complex immigration policies and assist countless individuals and families in making New Zealand their new home.

Expanding on my expertise, I ventured into the recruitment of international students, partnering with educational institutions across New Zealand. I played a pivotal role in initiating and developing short-term international student programs, enhancing the educational landscape by fostering partnerships and sister school relationships between New Zealand schools and their counterparts in China. My efforts have not only helped schools grow their international presence but also enriched the educational experiences of students across borders.

**Immigration Consultant,  
Auckland**
